Reduces Costs of Lost Work Days

Immediate Functional Recovery

Maximum Stability

Lightweight

Made in the USA

Minimizes Deconditioning

Premium Comfort

Enhanced Mobility

Work Boot/Work Shoe Compliant

The Problem:

Ankle sprain is the most common musculoskeletal injury, resulting in millions of lost work days every year.

“Walking boots are heavy, cumbersome, not work boot/work shoe compliant, and significantly limit or negate an employee’s ability to return to work.”

– Occupational Health Physician

Competitive Matrix

TESTIMONIALS

“Proven on the athletic field, TayCo’s simple, yet ingenious design enables the worker to get better faster and return to work sooner.”
Dr. Edmond Feeks – Occupational Health Medical Director

“Walking boots are open toed and not work boot/work shoe compliant, so I had no option to return employees to work. With TayCo, employees can return to work and normal daily activities, boosting patient and customer satisfaction.”
Dr. Chris Sayers - Occupational Health Physician

“Plain and simple, TayCo reduces lost work days, decreases costs, and increases productivity.”
Rick Frye - Occupational Health Consultant
